About us

OUR HISTORY

Frozen Juice Spain is part of a business group that grows and supplies fresh juice and fruits. We grow, select and process the best fruits for our juices. Our headquarters are located in Murcia - Spain. We have been at the forefront of fresh juices and fruits for the past ten years and have an extensive international customer base. We sell organic and conventional products.

OUR MISSION

is to offer our customers new options for the consumption of fresh juice and citrus in an easy way, and with multiple and healthy alternatives.

OUR VISION

is to be a world leader in the market for vegetable squeezed goods, both fruit and vegetables, known for the quality and health of offered products and sustainability of all its processes.

Our Fruits

Working with local agricultural producers who are both partners and suppliers, means that the company has direct access to a wide variety of crops near our factories. Our suppliers have extensive experience in agricultural production which allows Frozen Juices Spain to obtain high quality fruits. The proximity of the crops to the plant and the speed of processing of the products guarantees maximum freshness.

Lemon Fresh

Spain has become the main exporter of this product, with Murcia being the region with the most production in the country. We have production all year round:

- **Primofiori**
- **Verna**
- **Eureka**

Orange Fresh

- **Navelina**: sweet, tasty pulp. Available October 20 to January 30.
- **Navelate**: high juice and sugar content. Available February 1 to March 15.
- **Navel Lane Late**: fruit of a good size and high fiber content. Available March 15 to May 30.
- **Valencia Late**: this Spanish orange, last to be harvested, can be marketed until the summertime. Available May 1 to September 30.

Tangerine Fresh

- **Clemenvillas**: highly valued for its intense red color and sweet taste. Available November 15 to January 30.
- **Nadarcott**: pleasant sweet taste, peel that is pinkish inside and easy to remove. Available February 1 to April 15.
- **Ortaniques**: large tangerines with hard peel; perfect for juice. Available February 1 to April 30.
- **Ellendales**: late tangerine, easy to peel. Available February 1-28.

" We let the great taste of simple ingredients shine through.
Just a tasty balance of healthy goodness you can feel good
about. It's what makes Frozen Juice Spain a brighter choice "
